

## Subject card

Subject name and code	Global Digital Transformation, PG_00067383						
Field of study	Engineering Management						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2027/2028		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department Of Informatics In Management -> Faculty Of Management And Economics -> Wydział Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	15.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		5.0		25.0	75
Subject objectives	Assesses the impact of global digital transformation, analyzing its characteristics, benefits and threats						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W03] knows reliable sources of information and utilizes advanced knowledge to explain contemporary management issues.		knows reliable sources of information on digital transformation and is able to use advanced knowledge to analyze and interpret managerial challenges related to digital technology development		[SW3] Assessment of knowledge contained in written work and projects		
	[K6_U07] uses advanced information technologies to enhance data analysis and management processes.		is able to use advanced digital and IT tools to analyze data and optimize management processes in the context of global digital transformation		[SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task		
	[K6_K01] is ready to fulfill professional roles responsibly, taking legal, ethical, and cultural aspects into account in decision-making processes.		makes decisions in the digital environment with professional responsibility, considering legal, ethical, and cultural aspects of the global technological transformation		[SK5] Assessment of ability to solve problems that arise in practice		
Subject contents	An introduction to digital transformation Problems of global implementation of digital transformation Types of digital transformation Features that define digital transformation The benefits of digital transformation Inequalities of benefits from digital transformation Who benefits the most from digital transformation What is the impact of digital transformation on the scope of benefits						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Exam		60.0%		60.0%		
	Group project		60.0%		40.0%
