

## Subject card

Subject name and code	Internship, PG_00067385						
Field of study	Engineering Management						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2027/2028		
Education level	first-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		4.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Administration, Faculty Of Management And Economics -> Faculty Of Management And Economics -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		0.0		100.0	100
Subject objectives	Using knowledge and skills to solve problems in enterprises and assessing phenomena taking place in their surroundings.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K01] is ready to fulfill professional roles responsibly, taking legal, ethical, and cultural aspects into account in decision-making processes.		is able to act thoughtfully in a professional setting, aligning their behavior with organizational and social norms,		[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness		
	[K6_U03] collaborates with others in solving interdisciplinary problems.		is able to participate effectively in team tasks, communicating with professionals from various areas of an organization and contributing to solving practical problems		[SU5] Assessment of ability to present the results of task		
Subject contents	Learning about the organizational structure of a company or institution.						
	Become familiar with the tools, manufacturing systems and engineering techniques used in enterprise.						
	Participation in the creation and implementation of an engineering project.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Report		100.0%		100.0%		
Recommended reading	Basic literature		Specialty-specific.				
	Supplementary literature		Specialty-specific.				
	eResources addresses		Adresy na platformie eNauczanie:				

Example issues/ example questions/ tasks being completed	Collection of research materials.Indication of the problem.Problem solving steps.Database usage.Preparing a report.
Work placement	Not applicable

Document generated electronically. Does not require a seal or signature.
