

## Subject card

|   |   |  |   |                                     |  |            |     |
|---|---|--|---|-------------------------------------|--|------------|-----|
| Subject name and code                       | MASTER THESIS, PG_00067543  |  |   |                                     |  |            |     |
| Field of study                              | Economic Analytics  |  |   |                                     |  |            |     |
| Date of commencement of studies             | October 2025  |  | Academic year of realisation of subject   |                                     | 2026/2027  |            |     |
| Education level                             | second-cycle studies  |  | Subject group   |                                     | Optional subject group   |            |     |
| Mode of study                               | Full-time studies   |  | Mode of delivery  |                                     | at the university  |            |     |
| Year of study                               | 2   |  | Language of instruction   |                                     | Polish   |            |     |
| Semester of study                           | 4   |  | ECTS credits  |                                     | 17.0   |            |     |
| Learning profile                            | general academic profile  |  | Assessment form   |                                     | assessment   |            |     |
| Conducting unit                             | Department Of Finance -> Faculty Of Management And Economics -> Wydziały Politechniki Gdańskiej   |  |   |                                     |  |            |     |
| Name and surname of lecturer (lecturers)    | Subject supervisor  |  |   |                                     |  |            |     |
|   | Teachers  |  |   |                                     |  |            |     |
| Lesson types and methods of instruction     | Lesson type   | Lecture  | Tutorial  | Laboratory                          | Project  | Seminar    | SUM |
|   | Number of study hours   | 0.0  | 0.0   | 0.0                                 | 0.0  | 0.0        | 0   |
|   | E-learning hours included: 0.0  |  |   |                                     |  |            |     |
| Learning activity and number of study hours | Learning activity   | Participation in didactic classes included in study plan |   | Participation in consultation hours |  | Self-study | SUM |
|   | Number of study hours   | 0  |   | 35.0                                |  | 390.0      | 425 |
| Subject objectives                          | Creates a diploma thesis by effectively integrating data and information from various sources, demonstrating the ability to think critically and analytically, taking personal responsibility for pursuing their goals and increasing opportunities for personal development  |  |   |                                     |  |            |     |
| Learning outcomes                           | Course outcome  |  | Subject outcome   |                                     | Method of verification   |            |     |
|   | [K7_K03] responsibly fulfills professional roles, demonstrating the ability to identify ethical dilemmas and recognize and evaluate alternative courses of action.  |  | develops its potential by gaining new experiences, with the awareness of responsibility for achieving its goals   |                                     | [SK5] Assessment of ability to solve problems that arise in practice |            |     |
|   | [K7_K01] is ready to critically evaluate his/her knowledge in economic analytics and seek expert opinions when facing difficulties in solving a problem independently.  |  | demonstrates the ability to think creatively and analytically by integrating data and information from many different sources, striving to solve a specific problem       |                                     | [SK5] Assessment of ability to solve problems that arise in practice |            |     |
|   | [K7_U03] formulates research hypotheses and select appropriate methods for their verification using advanced it tools.  |  | demonstrates creative activity in identifying innovative ideas by formulating research questions to the identified problem and selecting and using the appropriate method |                                     | [SU3] Assessment of ability to use knowledge gained from the subject |            |     |
| Subject contents                            | Formulating the research problem<br>Searching and analyzing the literature on the subject<br>Collecting data from various sources: surveys, observations, statistical data, documentation<br>Choosing a method to solve the problem<br>Solving the problem and interpreting the results<br>Conclusions confirming the solution to the problem |  |   |                                     |  |            |     |
| Prerequisites and co-requisites             |   |  |   |                                     |  |            |     |
| Assessment methods and criteria             | Subject passing criteria  |  | Passing threshold   |                                     | Percentage of the final grade  |            |     |
|   | Diploma thesis  |  | 100.0%  |                                     | 100.0%   |            |     |
| Recommended reading                         | Basic literature  |  | To be determined with the thesis supervisor depending on the topic chosen by the graduate.  |                                     |  |            |     |
|   | Supplementary literature  |  | To be determined with the thesis supervisor depending on the topic chosen by the graduate.  |                                     |  |            |     |
|   | eResources addresses  |  | Adresy na platformie eNauczanie:  |                                     |  |            |     |
