

## Subject card

Subject name and code	Socio-cultural determinants of spatial economy, PG_00068184						
Field of study	Spatial Development						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department Of Urban Design And Regional Planning -> Faculty Of Architecture -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	30.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		3.0		27.0	75
Subject objectives	Gaining knowledge in the field of social conditions of spatial development and the ability to interpret the influence of the cultural contexton the way spatial management is organized						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U03] acquires, collects and classifies information in the field of spatial management from a variety of sources, including literature, databases, electronic sources, field observations, surveys and interviews; can perform urban and ruralistic inventory		can correctly identify and explain the basic social and cultural conditions of spatial management of a specific area and forecast the impact of basic social processes on the structure of spatial development and on this basis is able to propose adequate measures under spatial policy		[SU2] Assessment of ability to analyse information [SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools		
	[K6_W01] has knowledge related to theoretical and practical issues in the field of spatial management, the basics of planning and urban design and principles of local, regional and national development, and has knowledge about contemporary trends of development and revitalization of settlement structures and the life cycle of facilities and systems related to the functioning of settlement units		has knowledge relating to theoretical and practical issues in the field of space management, the basics of urban planning and design and the principles of local, regional and national development, as well as knowledge of contemporary trends in the development and revitalization of settlement structures and the life cycle of objects and systems related to the functioning of settlement units		[SW1] Assessment of factual knowledge		

Subject contents	research concepts on the socio-spatial differentiation of citiespre-, industrial and post-industrial city conceptsocial production of spacecity social space conceptheoretical and cultural heritage and cultural landscapea socialist and post-socialist cityconcepts of cities in contemporary urban policydimensions of social policysocial activity and urban activismbasic migration theoriespecificity of Polish foreign migrations after 2004suburbanization in Poland"Strangers" in the city - the influence of external city users on its social space		
Prerequisites and co-requisites	no admission requirements at academic level		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	final test	51.0%	40.0%
	presentation of a team project about a place in the city	60.0%	35.0%
	realizacja ćwiczeń cząstkowych podczas zajęć	60.0%	25.0%
