

。 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

| Subject name and code | Manufacturing Polymer Elements, PG_00055493 | | | | | | | |
|--|--|---|--|-------------------------------------|-----------|---|--------------|-------------------|
| Field of study | Mechanical Engineering | | | | | | | |
| Date of commencement of studies | October 2025 | | Academic year of realisation of subject | | | 2027/2028 | | |
| Education level | first-cycle studies | | Subject group | | | Optional subject group Subject group related to scientific research in the field of study | | |
| Mode of study | Full-time studies | | Mode of delivery | | | at the university | | |
| Year of study | 3 | | Language of instruction | | | Polish | | |
| Semester of study | 5 | | ECTS credits | | | 4.0 | | |
| Learning profile | general academic profile | | Assessment form | | | assessment | | |
| Conducting unit | Institute Of Manufacturing And Materials Technology -> Faculty Of Mechanical Engineering And Ship Technology -> Wydziały Politechniki Gdańskiej | | | | | | nd Ship | |
| Name and surname | Subject supervisor | | dr inż. Sławor | dr inż. Sławomir Szymański | | | | |
| of lecturer (lecturers) | Teachers | | | 1 | | | | |
| Lesson types and methods | Lesson type | Lecture | Tutorial | Laboratory | Projec | t | Seminar | SUM |
| of instruction | Number of study hours | 15.0 | 0.0 | 15.0 | 15.0 | | 0.0 | 45 |
| | E-learning hours included: 0.0 | | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation i classes incluc plan | | Participation in consultation hours | | Self-study | | SUM |
| | Number of study hours | 45 | | 7.0 | | 48.0 | | 100 |
| Subject objectives | Acquiring knowledge nests and production | | | | | meric r | naterialsThe | ability to design |
| Learning outcomes | Course outcome | | Subject outcome | | | Method of verification | | |
| | [K6_W03] possesses and is able to practically apply the knowledge on the construction, properties and testing methods of construction materials | | The student knows the methods of manufacturing products from polymeric materials The student knows the machines, tools and raw materials used in the processing of polymers | | | [SW1] Assessment of factual knowledge | | |
| | [K6_U10] is able to formulate the principles of selecting a material for a construction, ensuring the correct operation of a device | | the student is able to analyze the technological performance of a polymer product and select the optimal material and choose the appropriate technological process | | | [SU1] Assessment of task fulfilment | | |
| | [K6_U04] is able to perform a critical analysis of the existing technical solutions, present the specification of the technology of manufacturing basic construction elements of machines and engineering assemblies | | The student is able to design a production line and an automated production cell for the production of polymer products | | | [SU1] Assessment of task fulfilment | | |
| Subject contents | 1. classification of po extrusion, pressing, c (molds and heads)4 / | alendering, the | ermoforming, ca | asting3. Consti | ruction c | of tools | | |

| Prerequisites and co-requisites | knowledge of materials science | | | | | |
|--|---|--|-------------------------------|--|--|--|
| Assessment methods | Subject passing criteria | Passing threshold | Percentage of the final grade | | | |
| and criteria | project | 60.0% | 30.0% | | | |
| | raport | 60.0% | 20.0% | | | |
| | test | 60.0% | 50.0% | | | |
| Recommended reading | Basic literature | 1.Robert Sikora:, Przetwórstwo tworzyw polimerowych, WydawnictwoPolitechniki Lubelskiej, Lublin 20062. 2.W. Korszak: Technologia tworzyw sztucznych, WNT Warszawa,1981 | | | | |
| | Supplementary literature | Supplementary literature 1. Sachtling. Tworzywa Sztuczne -poradnik, WNT Warszawa, 1995 | | | | |
| | eResources addresses | Adresy na platformie eNauczanie: | | | | |
| Example issues/ example questions/ tasks being completed | 1. Characterize the injection process2. Present the project of a line for the production of PE pipes3. Design a thin-walled molding | | | | | |
| Work placement | Not applicable | | | | | |

Document generated electronically. Does not require a seal or signature.
