

Subject card

Subject name and code	Cargo Handling Systems, PG_00060631						
Field of study	Transport and Logistics						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Institute Of Naval Architecture -> Faculty Of Mechanical Engineering And Ship Technology -> Wydział Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Jacek Nakielski				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The aim of the course is to familiarize the student with reloading systems. Transhipment systems operating on ships and in transhipment terminals will be presented.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U04] is skilled in self-educating in order to develop his professional qualifications, is prepared to work in an industrial environment, applies the principles of occupational health and safety		Can actively participate in lectures.		[SU3] Assessment of ability to use knowledge gained from the subject		
	[K6_W05] has established knowledge in the field of design, construction and operation of transport means and systems		Familiarization with transhipment systems, both port and ship.		[SW1] Assessment of factual knowledge		
Subject contents	1. Introduction to the subject. 2. Maritime transport systems. The role of maritime transport in servicing world trade. 3. Characteristics of cargo transported by sea. 4. General and technical characteristics of vessels designed to transport solid, liquid and gaseous bulk cargo. 5. winding reloading systems for solid, liquid and gaseous bulk cargo. 6. General and technical characteristics of vessels intended for the transport of general cargo, large-size and containerized cargo. 7. Ship lo-lo reloading systems. 8. winding ro-ro transhipment systems. 9. Oil terminals. 10. Gas terminals. 11. Bulk cargo terminals. 12. Container terminals. 13. Ro-ro terminals.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Test 2		50.0%		50.0%		
	Test 1		50.0%		50.0%
