| Learning activity<br>and number of study hours | Learning activity   | Participation i<br>classes incluc<br>plan |  |                   | Self-study SUM |   |            |     |  |
|  | Number of study hours   | 45  | 4.0  |                   | 51.0 100       |   | 100        |     |  |
| Subject objectives                             | Student should have   | principles knov                           | vledge in Mach   | ine Elements [    | Design         |   |            |     |  |
| Learning outcomes                              | Course outcome  |   | Subject outcome  |                   |                | Method of verification  |            |     |  |
|  | [K6_W03] has well structured<br>knowledge of hydromechanics,<br>thermodynamics, machine<br>construction, ecology, material<br>science and electrical engineering<br>necessary to understand the<br>principles of construction and<br>operation of means of water<br>transport   |   | The student has basic knowledge of machine design.   |                   |                | [SW3] Assessment of knowledge<br>contained in written work and<br>projects            |            |     |  |
|  | [K6_U05] can formulate a simple<br>engineering task and its<br>specification in the field of design,<br>maintenance and operation of<br>transport means and systems   |   | The student has basic knowledge of machine design.   |                   |                | [SU3] Assessment of ability to<br>use knowledge gained from the<br>subject            |            |     |  |
| Subject contents                               | 1. Design, types and calculations of permanent fastening machine elements. 2. Design, types and calculations of screw joints. 3. Design, types and calculations of hub and shaft fastening. 4. Design of shafts and axles. 5. Springs. 6. Design, types and calculations of ball and roller bearings. 7. Sliding bearings. 8. Gears. 9. Angular, planetary and worm gears. 10. Chain gears. 11. Belt gears. |   |  |                   |                |   |            |     |  |
| Prerequisites<br>and co-requisites             | Principles knowledge of technical drawing and mechanics.  |   |  |                   |                |   |            |     |  |
| Assessment methods<br>and criteria             | Subject passing criteria  |   | Pass   | Passing threshold |                | Percentage of the final grade   |            |     |  |
|  | test  |   | 60.0%  |                   |                | 100.0%  |            |     |  |
