

Subject card

Subject name and code	Psychological bassis of a human behaviour, PG_00058744									
Field of study	Environmental Engineering									
Date of commencement of studies	October 2025	Academic year of realisation of subject		2025/2026						
Education level	first-cycle studies		Subject group		Optional subject group Humanistic-social subject group					
Mode of study	Full-time studies		Mode of delivery		e-learning					
Year of study	1		Language of instruction		Polish					
Semester of study	1		ECTS credits		2.0					
Learning profile	general academic profile		Assessment form		assessment					
Conducting unit	Department Of Ship Manufacturing Technology Quality Systems And Materials Science -> Faculty Of Mechanical Engineering And Ship Technology -> Wydziały Politechniki Gdańskiej									
Name and surname of lecturer (lecturers)	Subject supervisor Teachers									
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar				
	Number of study hours	30.0	0.0	0.0	0.0	30				
E-learning hours included: 30.0										
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		SUM				
	Number of study hours	30		0.0		20.0				
50										
Subject objectives	The aim of the course is to acquaint students with the psychological foundations of human behavior.									
Learning outcomes	Course outcome		Subject outcome		Method of verification					
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment		The student understands the processes of decision-making by the people and their emotions and motivations.		[SU3] Assessment of ability to use knowledge gained from the subject					
	[K6_W71] has general knowledge in humanistic, social, economic or legal sciences		The student knows the selected psychological theories of human development.		[SW1] Assessment of factual knowledge					
	[K6_K71] is conscious of the need to apply knowledge from humanistic, social, economic or legal sciences in order to function in a social environment		The student understands the importance of psychological processes in relations with other people		[SK4] Assessment of communication skills, including language correctness					

Subject contents	1. Psychology conception of the Man 2. Human development in the full life cycle 3. Psychology of emotions. 4. Temperament and human personality. 5. Attention and memory. 6. Intelligence 7. Self-presentation and interpersonal communication. 8. Affiliation and friendship 9. Love and romantic relationships 10. Persuasion.						
Prerequisites and co-requisites
