GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Project Management, PG_00068486
Field of study	Engineering Management

Date of commencement of studies	October 2025	Academic year of realisation of subject	2026/2027
Education level	first-cycle studies	Subject group	Obligatory subject group in the field of study
			Subject group related to scientific research in the field of study
Mode of study	Part-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	Polish
Semester of study	3	ECTS credits	5.0
Learning profile	general academic profile	Assessment form	assessment

Conducting unit	Department Of Informatics In Management -> Faculty Of Management And Economics -> Wydziały Politechniki Gdańskiej
Name and surname of lecturer (lecturers)	Subject supervisor
	Teachers

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	16.0	0.0	16.0	0.0	0.0	32
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	32	5.0	88.0	125

Subject objectives	Plans the design process, taking into account all factors affecting the achievement of planned goals in a timely and financially effective manner

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_K01] is ready to fulfill professional roles responsibly, taking legal, ethical, and cultural aspects into account in decision-making processes.	is able to operate in a project environment with consideration for applicable standards and social conditions, making decisions that reflect a responsible approach to the team, stakeholders, and the project context	[SK5] Assessment of ability to solve problems that arise in practice
	[K6_U03] collaborates with others in solving interdisciplinary problems.	is able to effectively engage in collaborative project work, taking into account various expert perspectives and adapting communication to a diverse team	[SU5] Assessment of ability to present the results of task
	[K6_W05] possesses advanced knowledge in integrating data from various sources and in the methods that enable a comprehensive analysis of contemporary management issues.	integrates data and information from many sources, selecting appropriate methods, obtaining the desired solution	[SW1] Assessment of factual knowledge

Subject contents	LECTURE: Basic issues related to project management Classic, agile and adaptive project management methodologies Project planning principles Areas and processes of project management Project integration management Project scope management Project resource management Time management in the project Project cost management Methods of cost and project duration analysis Quality management in the project Project communication management Project risk management Project order management. Project portfolio management LABORATORY Using the MS Project software to implement your own project Designing a network of activities in the form of a network diagram Designing a flowchart with a task list, parent and child tasks Assignment of resources to tasks according to the method of constant work, constant time, constant number of resources Resource balancing and elimination of overloads Overtime as a rescue resource Shared resource pool Managing multiple projects Project cost analysis Risk analysis of meeting the project deadline Reporting (printouts)
Prerequisites and co-requisites	

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Project	100.0%	60.0%
	Written exam	60.0%	40.0%
