

Subject card

Subject name and code	Information Technology in Managemen, PG_00068489						
Field of study	Engineering Management						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies (on-line)		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		4.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department Of Informatics In Management -> Faculty Of Management And Economics -> Wydział Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	24.0	0.0	0.0	24
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	24		5.0		71.0	100
Subject objectives	Identifies sources of reliable information, performing their advanced analysis and using the results to evaluate and support management processes						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K02] is prepared to make competent and ethical decisions to create and maintain economic, social, and environmental values, demonstrating entrepreneurial actions.		makes informed and ethical decisions related to the implementation of IT in management		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_U03] collaborates with others in solving interdisciplinary problems.		is able to collaborate with professionals from various departments and disciplines in designing and implementing IT solutions that support management processes		[SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment		
Subject contents	BPMN: application of notation in organization modeling, process optimization EXCEL: Streamlining business tasks with the use of the Excel application Basic data operations (importing external data, sorting and filtering operations) Functions (mainly math, text, statistics, search and address). Nesting functions Advanced data processing using functions Macros Building applications in MS Excel						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Final work covering the components of individual laboratories		60.0%		100.0%
