

。 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Materials selection, PG_00053711							
Field of study	Mechanical Engineering							
Date of commencement of studies	October 2023		Academic year of realisation of subject			2025/2026		
Education level	first-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	3		Language of instruction		English			
Semester of study	6		ECTS credits		2.0			
Learning profile	general academic profile		Assessment form		assessment			
Conducting unit	Institute Of Manufacturing And Materials Technology -> Faculty Of Mechanical Engineering And Ship Technology -> Wydziały Politechniki Gdańskiej							
Name and surname	Subject supervisor		dr inż. Artur Sitko					
of lecturer (lecturers)	Teachers							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
	Number of study hours	30.0	15.0	0.0	0.0		0.0	45
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	45		0.0		0.0		45
Subject objectives	Student knows methods which are used in materials selection. Student knows the role of limited lines, guidelines and Asby's diagrams in materials selection. Student can choose the best material which is used in specified application.							

Learning outcomes	Course outcome	Subject outcome	Method of verification			
	K6_U10	Student can formulate main principles connected with the function/-s, design constraint/-s, objectives as well as free veriables ect. which are important in determining the material indexes used in materials selection.	[SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject			
	K6_U01	Student can use basic literature and stores information about materials which are necessary in their specified applications.	[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information			
	[K6_W12] possesses basic knowledge necessary to understand the ex-technical conditions of engineering activity, possesses basic knowledge on management, including quality management and running commercial enterprise, within the range of protection of intellectual property and patent law; knows general principles of creating and developing forms of individual entrepreneurship and basic HSE rules applicable to machine industry	Student has knowledge regarding correct usage of literature.	[SW1] Assessment of factual knowledge			
	K6_W03	Student has knownledge in the field of various materials used in industrial practice.	[SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects			
Subject contents	Classification of material groups. Material properties. Key issues related to design process. Methods of materials selection in practical applications by using limited line/-es, guideline/-es on Ashby's diagrams. Basic issues connected with materials selection taking into account the shape of elements. Fundamental issues related to manufacturing process in the context of materials selection.					
Prerequisites and co-requisites						
Assessment methods and criteria	Subject passing criteria	Passing threshold 50.0%	Percentage of the final grade 100.0%			
	Subject passing criteria Basic literature	-	100.0% n: Materials: engineering, science,			
and criteria		50.0% M.F. Ashby, H.R. Shercliff, D. Cebo processing and design. 4th edition,	100.0% n: Materials: engineering, science, Butterworth Heinemann, Oxford, Process Selection for Engineering			
and criteria		50.0% M.F. Ashby, H.R. Shercliff, D. Cebo processing and design. 4th edition, 2019. Mahmoud M. Farag: Materials and I	100.0% n: Materials: engineering, science, Butterworth Heinemann, Oxford, Process Selection for Engineering ember 30, 2020 by CRC Press. Mechanical Design. 5th edition,			
and criteria		50.0% M.F. Ashby, H.R. Shercliff, D. Cebo processing and design. 4th edition, 2019. Mahmoud M. Farag: Materials and I Design. 4th edition. Published Dece M.F. Ashby: Materials Selection in N	100.0% n: Materials: engineering, science, Butterworth Heinemann, Oxford, Process Selection for Engineering omber 30, 2020 by CRC Press. Mechanical Design. 5th edition, 16.			
and criteria	Basic literature	50.0% M.F. Ashby, H.R. Shercliff, D. Cebo processing and design. 4th edition, 2019. Mahmoud M. Farag: Materials and I Design. 4th edition. Published Dece M.F.
