

Subject card

Subject name and code	DIPLOMA SEMINAR, PG_00063484						
Field of study	Biotechnology						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	second-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Biotechnology and Microbiology -> Faculty of Chemistry -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Anna Brillowska-Dąbrowska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		2.0		33.0	50
Subject objectives	Preparation for writing a diploma thesis						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_U08] prepares documentation of experiments and technological processes using professional terminology in biotechnology and related fields		The student is able to collect information from the course of experiments.		[SU5] Assessment of ability to present the results of task		
	[K7_K03] understands the social role and importance of providing reliable information and opinions to the public		The student understands how to properly analyze the results and present them in a way that is clear to the audience.		[SK4] Assessment of communication skills, including language correctness		
	[K7_U06] plans research and designs biotechnological products and processes taking into account legal regulations and bioethical principles		The student is able to plan research within the framework of their diploma thesis.		[SU1] Assessment of task fulfilment		
	[K7_W05] identifies crucial developments in research, apparatus and technology in biotechnology and related fields		The student has knowledge on the equipment and techniques used in research in the field of biotechnology.		[SW2] Assessment of knowledge contained in presentation		
Subject contents	Course content – seminar 1. Requirements for the diploma thesis 2. Preparation of the table of contents of the diploma thesis 3. Presentation of the results of individual studies (The content depends on the topics of the research carried out by the students.)						
Prerequisites and co-requisites							

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Presentation	60.0%	90.0%
	Conducting a discussion	20.0%	10.0%
Recommended reading	Basic literature	Depending on the diploma's subject	
	Supplementary literature	Depending on the diploma's subject	
	eResources addresses		
Example issues/ example questions/ tasks being completed	1. Presentation of student's thesis 2. Leading a discussion after the thesis presentation		
Practical activities within the subject	Not applicable		

Document generated electronically. Does not require a seal or signature.
