

Subject card

Subject name and code	Master's thesis, PG_00065000						
Field of study	Transport and Logistics						
Date of commencement of studies	February 2026	Academic year of realisation of subject			2026/2027		
Education level	second-cycle studies	Subject group			Optional subject group		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			20.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Institute of Naval Architecture -> Faculty of Mechanical Engineering and Ship Technology -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. Jakub Montewka					
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	0	30.0		470.0		500
Subject objectives	Student learns formal rules for preparation of the master's thesis Student prepares diploma thesis under supervision of tutor Student knows rules for preparation of the presentation as well as formal regulations of the diploma exam Student presents his/her presentation and carried out post-presentation discussion with rest of group						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_K13] is ready for responsible performance of professional roles, considering ever-changing need of the society, including self development and supporting and fulfilling work ethics	The student is ready to perform professional roles responsibly, taking into account changing social needs; actively develops professional achievements, maintains the ethos of the profession and consistently adheres to the principles of professional ethics.	[SK1] Assessment of group work skills
	[K7_U12] develops her/his own potential and independently plans own, lifelong learning, while also being able to guide others in this regard	The student is able to independently develop, implement and evaluate an individual, long-term learning plan (career/lifelong learning plan) containing SMART goals, a timetable, learning sources and methods, and progress monitoring tools, and is also able to guide and support at least two other participants in the development process through short counseling/mentoring sessions and providing constructive feedback.	[SU3] Assessment of ability to use knowledge gained from the subject
	[K7_K11] is aware of importance of professional acting, the need for critical verification of acquired knowledge and consulting experts opinion in case of facing difficulties with individual problem solving	The student demonstrates a professional and ethical attitude in action, regularly critically reviews his/her knowledge and is able to identify the limits of his/her own competence and actively seek expert opinion or collaborate with a team of specialists in situations requiring support.	[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness
	[K7_U15] evaluates the feasibility of advanced methods and tools for solving complex engineering tasks of a practical nature, characteristic of the field of study, and selects and applies appropriate methods and tools for this purpose	The student is able to assess the suitability of advanced methods and tools for solving a complex, practical engineering task typical of the field of study, select the optimal approach and independently apply selected methods and tools in a practical project or experiment.	[SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task
Subject contents			
Prerequisites and co-requisites	Basic skills in word processor and presentation software Knowledge on proposed subject of diploma thesis		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	2 seminar presentations	75.0%	100.0%
Recommended reading	Basic literature	Huckin T.N, Olsen L.A., Technical Writing and Professional Communication, McGraw-Hill, Inc.	
	Supplementary literature	MS Word - manual Power Point - manual	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Practical activities within the subject	Not applicable
