

Subject card

Subject name and code	Diploma seminar, PG_00059160							
Field of study	Seminarium dyplomowe							
Date of commencement of studies	October 2022		Academic year of realisation of subject			2025/2026		
Education level	first-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	4		Language of instruction			Polish		
Semester of study	7		ECTS credits			4.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department of Sanitary Engineering -> Faculty of Civil and Environmental Engineering -> Faculties of Gdańsk University of Technology							ties of
Name and surname	Subject supervisor	dr hab. inż. Sylwia Fudala-Książek						
of lecturer (lecturers)	Teachers			i	+			
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
	Number of study hours	0.0	0.0	0.0			45.0	45
	E-learning hours inclu	uded: 0.0	•				•	
Learning activity and number of study hours	Learning activity	Participation i classes includ plan		Participation in consultation hours		Self-st	udy	SUM
	Number of study hours	45		6.0		50.0		101
Subject objectives	The aim of the course is to enable students to acquire the ability to concisely present their work and results, including proposed engineering solutions. Students expand their knowledge on selected topics related to the broadly understood sanitary engineering industry, including current design and implementation activities.							
Learning outcomes	Course outcome		Subject outcome			Method of verification		
	[K6_K01] can think and act in a creative and enterprising way; can set priorities for the implementation of an individual or group task; understands the need for continuous training and professional responsibility for their activities and team		They are able to think globally and creatively, in an entrepreneurial manner; they have the ability to set priorities in the implementation of tasks, are able to work individually and in a group; they understand the need for education and professional responsibility for themselves and their team.			[SK5] Ocena umiejętności rozwiązywania problemów występujących w praktyce [SK3] Ocena umiejętności organizacji pracy [SK1] Ocena umiejętności pracy w grupie		
	[K6_U01] has the ability to self- education, can obtain information from literature, databases and other sources, uses information technology, Internet resources; can integrate the obtained information, make their interpretation, as well as draw conclusions and formulate and justify opinions		information obtained, interpret it, draw conclusions, and formulate and justify opinions.			[SU1] Ocena realizacji zadania [SU4] Ocena umiejętności korzystania z metod i narzędzi [SU2] Ocena umiejętności analizy informacji		
	[K6_U03] can prepare documentation regarding the implementation of an engineering task/project and prepare a text or presentation including a discussion of the results of the implementation		Can prepare documentation concerning the implementation of an engineering task/project and prepare a text containing a discussion of the results of the implementation of the engineering task.			[SU1] Ocena realizacji zadania		
	[K6_W17] has a structured and indepth knowledge of environmental engineering as part of the diploma profiles offered		He has the ability to apply his indepth knowledge of environmental engineering in the broadest sense.			[SW2] Ocena wiedzy zawartej w prezentacji [SW3] Ocena wiedzy zawartej w opracowaniu tekstowym i projektowym

Subject contents	Course content – seminar SEMINAR: Presentation of the rules for completing and writing engineering theses. Familiarising students with soft skills in management, negotiation and interviewing. Presentation of opportunities for self-education/further education. Presentation of papers and presentations based on questions developed throughout the course of study.					
Prerequisites and co-requisites	Knowledge and skills acquired during the course of study.					
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade			
	Presentation on a selected topic from the course of engineering studies.	60.0%	100.0%			
Recommended reading	Basic literature	Przemysław Kierończyk, Andrzej Pułło, 2020. Prace Dyplomowe. Zasady i reguły pisania. Wydawnictwo: Gdańska Szkoła Wyższa; ISBN: 978-83-66270-11-4 Literature relevant to the topic of the thesis.				
	Supplementary literature	Wasylczyk Piotr: Prezentacje naukowe. Praktyczny poradnik dla studentów, doktorantów i nie tylko. 2017 Wydawnictwo Naukowe PWN				
	eResources addresses					
Example issues/ example questions/ tasks being completed	Presentation on a selected topic from the course of engineering studies.					
Practical activites within the subject	Not applicable					

Document generated electronically. Does not require a seal or signature.
