

## Subject card

Subject name and code	, PG 00069817									
Field of study	Zarządzanie procesem inwestycyjnym									
Date of commencement of studies	February 2025		Academic year of realisation of subject			2025/2026				
Education level	second-cycle studies		Subject group							
Mode of study	Full-time studies		Mode of delivery			at the university				
Year of study	1		Language of instruction			Polish				
Semester of study	2		ECTS credits			2.0				
Learning profile	general academic profile		Assessment form			assessment				
Conducting unit	Department of Building Engineering -> Faculty of Civil and Environmental Engineering -> Faculties of Gdańsk University of Technology							ties of		
Name and surname	Subject supervisor		dr inż. Marcin Szczepański							
of lecturer (lecturers)	Teachers									
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project		Seminar	SUM		
	Number of study hours	15.0	15.0	0.0	0.0		0.0	30		
	E-learning hours included: 0.0									
	eNauczanie source address: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=47025									
Learning activity and number of study hours	Learning activity	Participation i classes include plan		Participation in consultation hours		Self-study		SUM		
	Number of study hours	30	0.0			0.0		30		
Subject objectives	-									
Learning outcomes	Course outcome Subject outcome Method of verification									
	[K7_W01] identifies in an in-depth way phenomena related to the field of study as well as theories describing them and possible methods of analyzing processes occurring in the life cycle of technical systems		identifies in-depth phenomena related to the investment process in construction, as well as theories and methods of analysis used in the life cycle of construction objects. Is able to apply these methods to assess key investment stages, taking into account formal, legal and technical requirements.			[SW1] Ocena wiedzy faktograficznej				
	[K7_K01] recognizes the importance of knowledge related to the field of study in solving cognitive and practical problems		The student is able to use the knowledge acquired during the course to solve practical problems related to the investment process in construction, taking into account applicable standards and legal regulations. Moreover, he is able to apply the acquired methods and analysis tools in order to make informed decisions at the stage of investment planning and implementation.			[SK3] Ocena umiejętności organizacji pracy [SK5] Ocena umiejętności rozwiązywania problemów występujących w praktyce				
	[K7_U05] cooperates with other people in the implementation of team work, both as a leader and a team member, effectively achieving set goals		The student is able to cooperate effectively in a team, both as a leader and as a team member, striving to effectively achieve the assumed project goals in the investment process.			[SU1] Ocena realizacji zadania [SU3] Ocena umiejętności wykorzystania wiedzy uzyskanej w ramach przedmiotu				
Subject contents	ect contents Course content – lecture
