

Subject card

Subject name and code	Diploma/Final Dissertation, PG_00058959						
Field of study	Praca dyplomowa (inżynierska)						
Date of commencement of studies	October 2022		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group				
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		20.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Sanitary Engineering -> Faculty of Civil and Environmental Engineering -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Sylwia Fudala-Książek				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		10.0		495.0	505
Subject objectives	The aim of the course is to prepare an engineering thesis - a project, a review or a research problem, depending on the diploma profiles offered.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U03] can prepare documentation regarding the implementation of an engineering task/project and prepare a text or presentation including a discussion of the results of the implementation		Is able to prepare documentation regarding the implementation of an engineering task/project and prepare a text containing a discussion of the implementation results		[SU4] Ocena umiejętności korzystania z metod i narzędzi [SU1] Ocena realizacji zadania		
	[K6_U01] has the ability to self-education, can obtain information from literature, databases and other sources, uses information technology, Internet resources; can integrate the obtained information, make their interpretation, as well as draw conclusions and formulate and justify opinions		Has the ability to self-educate, is able to obtain information from literature, databases and other sources, uses information technologies, internet resources; is able to integrate the obtained information, interpret it, draw conclusions, formulate and justify opinions		[SU4] Ocena umiejętności korzystania z metod i narzędzi [SU2] Ocena umiejętności analizy informacji		
	[K6_U16] can, when formulating and solving engineering tasks in environmental engineering, evaluate, select and apply appropriate methods and tools, recognize their non-technical aspects, including environmental, economic and legal aspects		Is able to evaluate, select and apply appropriate methods and tools when formulating and solving engineering tasks in environmental engineering, and to recognize their non-technical aspects, including environmental, economic and legal ones.		[SU4] Ocena umiejętności korzystania z metod i narzędzi		
	[K6_W17] has a structured and in-depth knowledge of environmental engineering as part of the diploma profiles offered		Has structured and in-depth knowledge of environmental engineering within the offered diploma profiles		[SW2] Ocena wiedzy zawartej w prezentacji		
Subject contents							
Prerequisites and co-requisites	Knowledge and skills acquired during the course of study.						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	thesis		60.0%		100.0%		

Recommended reading	Basic literature	Literature, scientific journals, websites relevant to the topic of the thesis.
	Supplementary literature	No requirements.
	eResources addresses	
Example issues/ example questions/ tasks being completed	Engineering diploma thesis of a design, analytical, or design-analytical nature.	
Practical activities within the subject	Not applicable	

Document generated electronically. Does not require a seal or signature.
