

Subject card

Subject name and code	DIPLOMA SEMINAR, PG_00064328						
Field of study	Chemical Technology						
Date of commencement of studies	February 2026	Academic year of realisation of subject			2026/2027		
Education level	second-cycle studies	Subject group			Optional subject group		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Biotechnology and Microbiology -> Faculty of Chemistry -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Adam Macierzanka					
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		10.0		25.0	50
Subject objectives	Acquisition of the skills necessary for the correct construction and presentation of theoretical and practical issues, essential for the completion of a masters thesis, which requires the implementation of an individual research/experimental plan agreed upon as part of the diploma project.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_K04] is aware of his/her responsibility for making decisions, respecting and developing principles of professional ethics and taking action to uphold these principles	is aware of the necessity to adhere to the principles of professional ethics and understands the consequences associated with making decisions in professional practice.			[SK1] Assessment of group work skills [SK2] Assessment of progress of work [SK3] Assessment of ability to organize work [SK5] Assessment of ability to solve problems that arise in practice		
	[K7_K01] critically evaluates the content of cognitive and practical problems	understands the need to update their knowledge in order to adopt a critical approach to problem-solving in the implementation of projects.			[SK2] Assessment of progress of work [SK3] Assessment of ability to organize work [SK5] Assessment of ability to solve problems that arise in practice		
	[K7_U01] designs experiments using computer methods of data analysis, computer simulations and based on the state of the knowledge in accordance with the latest scientific literature	is able to plan and carry out experiments, measurements, and calculations necessary to further develop the implemented research and/or applied project.			[SU2] Assessment of ability to analyse information [SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment		
Subject contents	Course content – seminar The content is selected individually from topics in cosmetic technology, depending on the subject of the specific diploma project carried out by the student.						
Prerequisites and co-requisites	Knowledge of chemical technology acquired during the semesters preceding the diploma semester.						
Assessment methods and criteria	Subject passing criteria	Passing threshold			Percentage of the final grade		
	Seminar – presentations	100.0%			100.0%		

Recommended reading	Basic literature	Heather A. E. Benson; Michael S. Roberts; Vania Rodrigues Leite-Silva, <i>Cosmetic Formulation: Principles and Practice</i> , CRC Press 2021 Jabłońska-Trypuć A., Czerpak R., <i>Surowce kosmetyczne i ich składniki</i> , MedPharm Wrocław 2008 Zieliński R., <i>Surfaktanty towaroznawcze i ekologiczne aspekty ich stosowania</i> , Wydawnictwo Akademii Ekonomicznej w Poznaniu, Poznań, 2000. Zieliński R., <i>Surfaktanty towaroznawcze i ekologiczne aspekty ich stosowania</i> , Wydawnictwo Akademii Ekonomicznej w Poznaniu, Poznań, 2000. <i>Physical Properties of Lipids</i> , ed. A. G. Marangoni, S.S. Narine, Marcel Dekker, Inc., New York, 2002.
