

Subject card

Subject name and code	DIPLOMA SEMINAR 1, PG_00070692						
Field of study							
Date of commencement of studies	October 2026		Academic year of realisation of subject		2028/2029		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		English		
Semester of study	6		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Management -> Faculty of Management and Economics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Marzena Grzesiak				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		3.0		57.0	75
Subject objectives	to prepare students to design a research concept in the field of engineering management, conduct a critical literature review, and develop methodological assumptions and data collection procedures in accordance with principles of academic integrity and research responsibility.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U02] communicates effectively with others by preparing presentations that use terminology specific to the field of engineering management, and by evaluating diverse opinions during discussions and debates.		is able to effectively communicate the assumptions, objectives, and concept of the diploma thesis using terminology appropriate for engineering management, and to critically respond to opinions and arguments presented during seminar discussions.		[SU5] Assessment of ability to present the results of task		
	[K6_K01] is ready to fulfill professional roles responsibly, taking legal, ethical, and cultural aspects into account in decision-making processes.		is ready to take responsibility for the role of the diploma thesis author, with consideration of academic integrity, legal requirements (including copyright), ethical standards, and cultural conditions relevant to the professional environment of an engineer-manager.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W06] understands and applies methods for classifying and evaluating acquired information based on advanced general and specialized knowledge, with consideration of their application in various types of professional activities.		knows and understands methods of classification, selection, and critical evaluation of information and sources in the context of preparing an engineering management diploma thesis.		[SW1] Assessment of factual knowledge		
Subject contents	Course content – seminar 1. Introduction to the methodology of writing theses, classes in an organized group 2. Introduction to the issues of intellectual property protection. Classes in an organized group 3. Determining the topic and scope of the diploma thesis in consultation with the supervisor						
Prerequisites and co-requisites							

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Test and presentation	60.0%	100.0%
Recommended reading	Basic literature	Determined with the seminar leader	
	Supplementary literature	Agreed with the seminar leader	
	eResources addresses		
Example issues/ example questions/ tasks being completed	.		
Practical activites within the subject	Not applicable		

Document generated electronically. Does not require a seal or signature.
