

Subject card

Subject name and code	DIPLOMA DISSERTATION, PG_00070745						
Field of study	Engineering Management						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2029/2030		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Part-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		12.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Management -> Faculty of Management and Economics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Marzena Grzesiak				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		3.0		297.0	300
Subject objectives	to independently develop and solve a problem in the field of engineering management through in-depth analysis of literature and data, formulation of conclusions, and proposing solutions applicable in practice, while adhering to principles of academic integrity and intellectual property protection.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U06] acquires specialized knowledge in the field of engineering management, demonstrating the ability to effectively plan individual work and pursue lifelong learning.		is able to independently acquire and integrate specialised knowledge in engineering management, plan and implement successive stages of the diploma thesis, and develop a solution to the identified problem based on literature and data analysis.		[SU3] Assessment of ability to use knowledge gained from the subject		
	[K6_K03] is prepared to critically assess the knowledge they possess, which is necessary for solving cognitive and practical problems, and to supplement any gaps with opinions from external experts.		is ready to critically evaluate sources and own findings, consult with the supervisor and external experts, and continuously supplement knowledge necessary for a reliable solution to a practical or cognitive problem.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W04] possesses advanced knowledge of the principles of creative and entrepreneurial activity, enabling the identification and implementation of innovative ideas while ensuring compliance with copyright protection requirements.		knows and understands principles of creative and entrepreneurial problem-solving in engineering management, as well as regulations concerning copyright and intellectual property protection in the context of the diploma thesis.		[SW1] Assessment of factual knowledge		
Subject contents							
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Thesis		60.0%		100.0%		
Recommended reading	Basic literature		Literature agreed with the thesis supervisor				
	Supplementary literature		None				

	eResources addresses	
Example issues/ example questions/ tasks being completed		
Practical activities within the subject	Not applicable
