

Subject card

Subject name and code	DIPLOMA SEMINAR 2, PG_00070762						
Field of study	Engineering Management						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2029/2030	
Education level	first-cycle studies	Subject group				Optional subject group Subject group related to scientific research in the field of study	
Mode of study	Part-time studies	Mode of delivery				at the university	
Year of study	4	Language of instruction				Polish	
Semester of study	7	ECTS credits				2.0	
Learning profile	general academic profile	Assessment form				assessment	
Conducting unit	Department of Management -> Faculty of Management and Economics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Marzena Grzesiak					
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	9.0	9
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	9		3.0		38.0	50
Subject objectives	to prepare students to independently conduct problem-oriented analysis and develop and defend the results of their diploma thesis in engineering management, applying appropriate research methods and adhering to principles of academic integrity and professional responsibility.						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[K6_W06] understands and applies methods for classifying and evaluating acquired information based on advanced general and specialized knowledge, with consideration of their application in various types of professional activities.		knows and understands methods for classifying, verifying, and critically evaluating data used in the analytical part of the diploma thesis, particularly in interpreting research results and relating them to engineering management theory.			[SW1] Assessment of factual knowledge	
	[K6_U02] communicates effectively with others by preparing presentations that use terminology specific to the field of engineering management, and by evaluating diverse opinions during discussions and debates.		is able to conduct data analysis, apply appropriate research methods to solve the identified problem, and present and defend analytical results using professional terminology in engineering management.			[SU5] Assessment of ability to present the results of task	
	[K6_K01] is ready to fulfill professional roles responsibly, taking legal, ethical, and cultural aspects into account in decision-making processes.		is ready to make responsible decisions in analysing and interpreting research results, taking into account legal, ethical, and cultural aspects, as well as principles of academic integrity in the final preparation of the diploma thesis.			[SK5] Assessment of ability to solve problems that arise in practice	
Subject contents	Course content – seminar The content of the seminar is determined during consultations with the promoter						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade	
	Presentation of the engineering project		60.0%			100.0%	
Recommended reading	Basic literature		Agreed with the seminar leader				

	Supplementary literature	Agreed with the seminar leader
	eResources addresses	
Example issues/ example questions/ tasks being completed		
Practical activities within the subject	Not applicable	

Document generated electronically. Does not require a seal or signature.
