

Subject card

Subject name and code	Urban Planning V, PG_00057996								
Field of study	Spatial Development								
Date of commencement of studies	October 2023	Academic year of realisation of subject		2025/2026					
Education level	first-cycle studies	Subject group							
Mode of study	Full-time studies	Mode of delivery		at the university					
Year of study	3	Language of instruction		Polish					
Semester of study	6	ECTS credits		6.0					
Learning profile	general academic profile	Assessment form		assessment					
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture -> Faculties of Gdańsk University of Technology								
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. arch. Piotr Lorens							
	Teachers								
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar			
	Number of study hours	0.0	15.0	0.0	30.0	0.0			
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		SUM			
	Number of study hours	45		0.0		45			
Subject objectives	Making students aware of the basic issues associated with shaping the local spatial development policy								

Learning outcomes	Course outcome	Subject outcome	Method of verification												
	[K6_K03] is aware of the social role of the spatial planning engineer, understands the need to promote, formulate and communicate to the public information and opinions about activities in the profession; is prepared to act in accordance with the principles of professional ethics, while taking care to cultivate the achievements and traditions of the profession of an urban planner and planner	is aware of the social role of the spatial planning engineer, understands the need to promote, formulate and communicate to the public information and opinions about activities in the profession; is prepared to act in accordance with the principles of professional ethics, while taking care to cultivate the achievements and traditions of the profession of an urban planner and planner	[SK5] Assessment of ability to solve problems that arise in practice												
	[K6_U06] properly analyses the causes and the course of the process, and the social, cultural, political, legal and economic problems affecting changes in space, including those resulting from historical circumstances; makes design decisions based on social conditions, respecting the needs of users, the cultural environment	properly analyses the causes and the course of the process, and the social, cultural, political, legal and economic problems affecting changes in space, including those resulting from historical circumstances; makes design decisions based on social conditions, respecting the needs of users, the cultural environment	[SU2] Assessment of ability to analyse information												
	[K6_W01] has knowledge related to theoretical and practical issues in the field of spatial management, the basics of planning and urban design and principles of local, regional and national development, and has basic knowledge about contemporary trends of development and revitalization of settlement structures and the life cycle of facilities and systems related to the functioning of settlement units	has knowledge related to theoretical and practical issues in the field of spatial management, the basics of planning and urban design and principles of local, regional and national development, and has basic knowledge about contemporary trends of development and revitalization of settlement structures and the life cycle of facilities and systems related to the functioning of settlement units	[SW1] Assessment of factual knowledge												
	[K6_U08] performs an urban project with a basic degree of complexity, in accordance with the set specification, applicable rules, legal provisions and taking into account economic factors, and prepares an outline of its implementation strategy; prepares elements of planning documentation, cooperating with industry specialists	performs an urban project with a basic degree of complexity, in accordance with the set specification, applicable rules, legal provisions and taking into account economic factors, and prepares an outline of its implementation strategy; prepares elements of planning documentation, cooperating with industry specialists	[SU5] Assessment of ability to present the results of task												
Subject contents	Course content – exercises Defining the selected problem issues associated with shaping the spatial development policy Completing the comprehensive analysis of the current state of the selected city/area Completing the proposal of the complex spatial development policy for the selected area/city Illustrating the selected problems/issues														
Prerequisites and co-requisites
