

Subject card

Subject name and code	Team research project I, PG_00066846										
Field of study	Economic Analytics										
Date of commencement of studies	October 2025	Academic year of realisation of subject		2025/2026							
Education level	second-cycle studies	Subject group									
Mode of study	Full-time studies	Mode of delivery		at the university							
Year of study	1	Language of instruction		Polish							
Semester of study	2	ECTS credits		3.0							
Learning profile	general academic profile	Assessment form		assessment							
Conducting unit	Department of Management Engineering and Quality -> Faculty of Management and Economics -> Faculties of Gdańsk University of Technology										
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Grzegorz Zieliński								
	Teachers		dr inż. Grzegorz Zieliński								
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM				
	Number of study hours	0.0	0.0	0.0	40.0	0.0	40				
E-learning hours included: 0.0											
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM				
	Number of study hours	40		3.0		32.0	75				
Subject objectives	The aim of the subject is to learn about practical aspects of conducting research and application projects										
Learning outcomes	Course outcome		Subject outcome			Method of verification					
	[K7_K101] acknowledges the importance of knowledge related to the field of study in solving cognitive and practical problems, critically assessing the information obtained		recognizes the importance of knowledge related to the studied field in the implementation of a team research project			[SK1] Assessment of group work skills [SK5] Assessment of ability to solve problems that arise in practice					
	[K7_W101] is able to make an in-depth identification of key objects and phenomena related to the field of study, as well as theories that describe them and applicable analytical and design methods		formulates assumed research problems and selects methods to obtain innovative solutions through cooperation with other people both as a leader and a member of the research team			[SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects					
	[K7_U101] is able to formulate complex research problems and adopts appropriate methods, obtaining innovative solutions, cooperating with other people, both as a leader and a team member		identifies in-depth objects and phenomena as well as theories and analytical and practical methods in conducting team projects			[SU1] Assessment of task fulfilment [SU5] Assessment of ability to present the results of task					
Subject contents	Course content – project Implementation of a selected research topic under the supervision of a supervisor from the Gdańsk University of Technology in the area of research, application or technology companies projects										
Prerequisites and co-requisites											
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade						
	Report		60.0%		50.0%						
	Lectures		50.0%		50.0%						
Recommended reading	Basic literature		Recommended as part of the selected topic by the instructor in accordance with the project subject.								
	Supplementary literature		Recommended as part of the selected topic by the instructor in accordance with the project subject.								
	eResources addresses										

Example issues/ example questions/ tasks being completed	Implementation of a selected research topic
Practical activites within the subject	Not applicable
