

Subject card

Subject name and code	CAD. Introduction, PG_00072047						
Field of study	Architecture						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2026/2027		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		English		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Visual Arts -> Faculty of Architecture -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr inż. arch. Dariusz Cyparski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The program aims to build students' knowledge about the possibilities of using computer programs to create design documentation and graphical presentations and develop basic skills in this area.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U01] is able to use the experience gained during studies to critically analyze the conditions and formulate conclusions for design in an interdisciplinary context		Has practical skills in creating and editing vector graphics and raster images. Can select appropriate computer tools and graphic resources for a design task. Able to appropriately select and utilize information technologies that support architectural and urban design.		[SU4] Assessment of ability to use methods and tools		
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design		The student uses graphic computer programs to create models and planar representations of three-dimensional objects in order to present the results of the design process.		[SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment		

Subject contents	Course content – laboratory The application of computer graphics in architectural design 1. Creation of digital spatial models in SketchUp: - creation, modifications and transformations of geometric objects - navigation in virtual space and defining parallel and perspective views 2. Creating visualizations of architectural objects based on digital models - the use of materials library and components 3. Creating technical vector drawings in AutoCAD - digital drawing management - properties, styles, layers, blocks, groups, etc. - printing to the scale 4. Creating complex digital documents - combining vector drawings, raster images and text		
Prerequisites and co-requisites	IT knowledge at the secondary school level		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	substantive and graphical correctness of practical exercises	100.0%	100.0%
Recommended reading	Basic literature	1. Course materials: Course: CAD. Introduction 2025/2026 2. User manuals available from the program's levels and/or provided online by software developers	
	Supplementary literature	1. A. Jaskulski, <i>AutoCAD 2019/LT2019/ Web / Mobile+ / Kurs projektowania parametrycznego i nieparametrycznego 2D i 3D</i> , Wersja polska i angielska, PWN 2018 2. Pottmann H, Asperl A., Hofer M., Kilian A.: <i>Architectural Geometry</i> . Bentley Institute Press 2007.	
	eResources addresses		
Example issues/ example questions/ tasks being completed	Models of architectural objects - viewing platform, summer house, single family house Vector drawings - elevations, conceptual floor plans, detail Multi-page document - portfolio		
Practical activities within the subject	Not applicable
