

Subject card

Subject name and code	Cargo Handling Systems, PG_00060631						
Field of study	Transport and Logistics						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2026/2027	
Education level	first-cycle studies	Subject group				Obligatory subject group in the field of study	
Mode of study	Full-time studies	Mode of delivery				at the university	
Year of study	1	Language of instruction				Polish	
Semester of study	1	ECTS credits				2.0	
Learning profile	general academic profile	Assessment form				assessment	
Conducting unit	Institute of Naval Architecture -> Faculty of Mechanical Engineering and Ship Technology -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Jacek Nakielski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The aim of the course is to familiarize the student with reloading systems. Transshipment systems operating on ships and in transshipment terminals will be presented.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W05] has established knowledge in the field of design, construction and operation of transport means and systems		Familiarization with transshipment systems, both port and ship.		[SW1] Assessment of factual knowledge		
	[K6_U04] is skilled in self-educating in order to develop his professional qualifications, is prepared to work in an industrial environment, applies the principles of occupational health and safety		Can actively participate in lectures.		[SU3] Assessment of ability to use knowledge gained from the subject		
Subject contents	<p>Course content – lecture</p> <ol style="list-style-type: none"> <li>1. Introduction to the subject.</li> <li>2. Maritime transport systems. The role of maritime transport in servicing world trade.</li> <li>3. Characteristics of cargo transported by sea.</li> <li>4. General and technical characteristics of vessels designed to transport solid, liquid and gaseous bulk cargo.</li> <li>5. winding reloading systems for solid, liquid and gaseous bulk cargo.</li> <li>6. General and technical characteristics of vessels intended for the transport of general cargo, large-size and containerized cargo.</li> <li>7. Ship lo-lo reloading systems.</li> <li>8. winding ro-ro transshipment systems.</li> <li>9. Oil terminals.</li> <li>10. Gas terminals.</li> <li>11. Bulk cargo terminals.</li> <li>12. Container terminals.</li> <li>13. Ro-ro terminals.</li> </ol>						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Test 1		50.0%		50.0%		
	Test 2		50.0%		50.0%
