Subject objectives

The Team Research Project aims to prepare students for future work in a research team and teach them to fulfil their obligations under a set schedule in a timely manner.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[K7_W101] is able to make an in-depth identification of key objects and phenomena related to the field of study, as well as theories that describe them and applicable analytical and design methods	Identifies in depth key objects and phenomena related to the field of study, as well as theories describing them and applicable analytical and design methods.	[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge
[K7_U101] is able to formulate complex research problems and adopts appropriate methods, obtaining innovative solutions, cooperating with other people, both as a leader and a team member	Defines complex research problems and selects appropriate methods to obtain innovative solutions, collaborating with others both as a leader and as a team member.	[SU5] Assessment of ability to present the results of task [SU3] Assessment of ability to use knowledge gained from the subject [SU1] Assessment of task fulfilment
[K7_K101] acknowledges the importance of knowledge related to the field of study in solving cognitive and practical problems, critically assessing the information obtained	Understands the importance of knowledge related to the field of study in solving cognitive and practical problems, critically evaluating the information obtained.	[SK5] Assessment of ability to solve problems that arise in practice [SK2] Assessment of progress of work
