

Subject card

Subject name and code	DIPLOMA THESIS, PG_00064421						
Field of study	Chemistry						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2029/2030		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		10.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Inorganic Chemistry -> Faculty of Chemistry -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
	eNauczanie source address: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=14893						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		10.0		240.0	250
Subject objectives	Preparation of a diploma thesis						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_K05] is aware of his/her social role as a graduate of a technical university, particularly in terms of communicating information and opinions to the public, and undertakes to communicate such information in an understandable way	is able to accurately interpret the results of scientific research and present them in a way that is easily understood by the audience.	[SK4] Assessment of communication skills, including language correctness
	[K6_U01] gathers information from literature, databases and other sources, interpreting, critically evaluating, summarising, formulating and justifying opinions, independently analyses and produces technical drawings with the use of computer assistance	is able to use literature databases and analyze the information obtained while writing the literature review section of a thesis.	[SU2] Assessment of ability to analyse information
	[K6_W07] integrates general knowledge in the humanities, social sciences, economics including their foundations, principles of protection of intellectual property and patent law relevant to appropriate interpretation and application in scientific and economic activities, and the concept of sustainable development	has knowledge of copyright and intellectual property protection and applies this knowledge while writing a thesis	[SW3] Assessment of knowledge contained in written work and projects
	[K6_U04] creates detailed documentation of the results obtained from the experiments carried out individually or as part of a team, analysing and interpreting the results in the form of text documents, spreadsheets, graphs, technological diagrams, multimedia presentations using correct chemical nomenclature	is able to interpret and describe the results of scientific research obtained during the preparation of the thesis, using appropriate tools and specialized technical and scientific terminology.	[SU4] Assessment of ability to use methods and tools
Subject contents			
Prerequisites and co-requisites	Not applicable		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Assessment of the diploma thesis	0.0%	100.0%
Recommended reading	Basic literature	<i>The Chicago Manual of Style</i> , 17th ed. Chicago: University of Chicago Press, 2017. https://doi.org/10.7208/cmos17	
	Supplementary literature	Provided by the diploma thesis supervisor	
	eResources addresses		
Example issues/ example questions/ tasks being completed	Provided by the diploma thesis supervisor		
Practical activities within the subject	Not applicable		

Document generated electronically. Does not require a seal or signature.
