

Subject card

Subject name and code	Practice, PG_00057807						
Field of study	Green Technologies						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2028/2029	
Education level	first-cycle studies	Subject group				Obligatory subject group in the field of study	
Mode of study	Full-time studies	Mode of delivery				at the university	
Year of study	3	Language of instruction				Polish	
Semester of study	6	ECTS credits				6.0	
Learning profile	general academic profile	Assessment form				assessment	
Conducting unit	Department of Chemistry and Technology of Functional Materials -> Faculty of Chemistry -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Radosław Pomećko				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	0	2.0		148.0	150	
Subject objectives	The main task of practice is to evaluate and improve the technological skills and abilities of the student, which were acquired during the studies. The practice gives the chance to apply those skills in the technological processes in environment of the production plant.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_K03] turns the attention to the prestige associated with the profession and professional solidarity properly understood, shows respect for others and concern for their welfare	The student knows the role and importance of engineer profession.			[SK4] Assessment of communication skills, including language correctness		
	[K6_K04] is ready to think and act in a creative and enterprising way, to negotiate, work in a team, assuming different roles	The student can analyze given problems and data, to find the right the solution.			[SK4] Assessment of communication skills, including language correctness		
	[K6_K01] understands the need for learning throughout life, can inspire and organize the learning process of others. Is aware of his/her own limitations and knows when to ask the experts, can properly identify priorities for implementation, critically evaluate his knowledge	The student has the knowledge and abilities to solve given technological problems.			[SK2] Assessment of progress of work		
	[K6_K06] has awareness of the importance of non-technical aspects and effects of engineering activities, including its impact on the environment and the associated responsibility for decisions.	The student is aware of influence of technological activity on natural environment. The student is able to identify the threats, and propose the methods to solve them.			[SK5] Assessment of ability to solve problems that arise in practice
