

Subject card

Subject name and code	Visualization of economic data, PG_00053007						
Field of study	Data Engineering, Data Engineering						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2028/2029		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			English		
Semester of study	5	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Statistics and Econometrics -> Faculty of Management and Economics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Olgun Aydin				
	Teachers		dr Olgun Aydin				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	30.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		2.0		28.0	75
Subject objectives	The aim of the course is to acquire the skills needed to construct effective communication in the visual business communication with the help of IT tools and solutions.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U02] prepares and presents convincingly professional presentations of the results of undertaken activities, with their advanced interpretation		The student prepares and presents convincing professional visual analyses.		[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools		
	[K6_W03] identifies veracious sources of information relevant to the analyzed issues		The student identifies reliable sources of visual information and uses appropriate data visualization methods for effective business communication.		[SW2] Assessment of knowledge contained in presentation		

Subject contents	<p>Course content – lecture History of statistical graphic</p> <p>Visualization of information in business and engineering communications. The role of visual information in the decision-making process</p> <p>Ergonomics of visual communication. Perceptual characteristics of the users. Perceptual and cognitive limitations of the user</p> <p>Basic forms of presentation of visual information: diagrams, charts, diagrams</p> <p>Visualization of quantitative data</p> <p>Visualization of qualitative data</p> <p>Exploration of statistical interactions</p> <p>Exploration of time series</p> <p>Cluster analysis (Wards method, k-means method)</p> <p>Fundamentals of GIS</p> <p>Analysis and visualization of geospatial data</p> <p>Visualization of symbolic data</p> <hr/> <p>Course content – laboratory</p> <p>Visualization of information in business and engineering communications.</p> <p>Basic forms of presentation of visual information: diagrams, charts, diagrams</p> <p>Visualization of quantitative data</p> <p>Analysis and visualization of geospatial data</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="456 1532 794 1563">Subject passing criteria</th> <th data-bbox="799 1532 1137 1563">Passing threshold</th> <th data-bbox="1142 1532 1481 1563">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="456 1565 794 1597">written colonium</td> <td data-bbox="799 1565 1137 1597">60.0%</td> <td data-bbox="1142 1565 1481 1597">50.0%</td> </tr> <tr> <td data-bbox="456 1599 794 1630">laboratory exercises</td> <td data-bbox="799 1599 1137 1630">60.0%</td> <td data-bbox="1142 1599 1481 1630">50.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	written colonium	60.0%	50.0%	laboratory exercises	60.0%	50.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
written colonium	60.0%	50.0%										
laboratory exercises	60.0%	50.0%
