

Subject card

Subject name and code		BSc Diploma Seminar II, PG_00059192						
Field of study		Informatics						
Date of commencement of studies		October 2026	Academic year of realisation of subject			2029/2030		
Education level		first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study		Full-time studies	Mode of delivery			at the university		
Year of study		4	Language of instruction			Polish		
Semester of study		7	ECTS credits			2.0		
Learning profile		general academic profile	Assessment form			assessment		
Conducting unit		Department of Computer Architecture -> Faculty of Electronics Telecommunications and Informatics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)		Subject supervisor		dr inż. Jarosław Kuchta				
		Teachers		dr inż. Jarosław Kuchta				
Lesson types		Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
		Number of study hours	0.0	0.0	0.0	0.0	15.0	15
		E-learning hours included: 0.0						
Learning activity and number of study hours		Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
		Number of study hours	15	5.0		30.0	50	
Subject objectives		Assistance in the implementation of the engineering diploma project. Preparation for writing the thesis.						
Learning outcomes		Course outcome	Subject outcome			Method of verification		
		[K6_U10] can individually plan their own lifelong education, also by means of advanced information and communication technologies (ICT), and communicate with people from their environment, firmly justify their point of view, participate in debates, present, assess and discuss different opinions and points of view, as well as use specialist terminology related to the field of study in communication	He/She can present the progress of work using modern multimedia techniques and answer the questions of the listeners.			[SU5] Assessment of ability to present the results of task		
		[K6_K01] is ready to cultivate and disseminate models of proper behaviour in and outside the work environment; make independent decisions; critically evaluate actions of their own, teams they lead and organisations they are part of; take responsibility for results of these actions; responsibly perform professional roles, including: n - observing rules of professional ethics and require it from others, n - care for the achievements and traditions of the profession	He/She is diligent in his/her engineering work.			[SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice		
		[K6_K02] is ready to critically assess possessed knowledge and acknowledge the importance of knowledge in solving cognitive and practical problems	He/She can present the progress of work and answer the questions of the listeners.			[SK4] Assessment of communication skills, including language correctness		

Subject contents	Course content – seminar 1. Presentations of the progress related to the engineering thesis. 2. Rules of writing some engineering thesis.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	A participation and activity on seminar.	50.0%	40.0%
	A presentation of the engineer work state.	50.0%	60.0%
