

Subject card

Subject name and code	Internet Technology in Infosystems - Laboratory, PG_00064144						
Field of study	Electronics and Telecommunications						
Date of commencement of studies	February 2027	Academic year of realisation of subject				2027/2028	
Education level	second-cycle studies	Subject group				Optional subject group Specialty subject group Subject group related to scientific research in the field of study	
Mode of study	Full-time studies	Mode of delivery				at the university	
Year of study	2	Language of instruction				Polish	
Semester of study	3	ECTS credits				1.0	
Learning profile	general academic profile	Assessment form				assessment	
Conducting unit	Metrology and Electronic Systems Department -> Faculty of Electronics Telecommunications and Informatics -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Arkadiusz Szewczyk				
	Teachers		dr inż. Arkadiusz Szewczyk				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	15.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	15	2.0		8.0		25
Subject objectives	Practicing the use of skills and knowledge acquired during the lecture.						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[K7_U04] can apply knowledge of programming methods and techniques as well as select and apply appropriate programming methods and tools in computer software development or programming devices or controllers using microprocessors or programmable elements or systems specific to the field of study, making assessment and critical analysis of the prepared software as well as a synthesis and creative interpretation of information presented with it		is able to use knowledge of programming methods and techniques, and choose and apply appropriate programming methods and tools in creating websites and web applications			[SU4] Assessment of ability to use methods and tools	
	[K7_U03] can design, according to required specifications, and make a complex device, facility, system or carry out a process, specific to the field of study, using suitable methods, techniques, tools and materials, following engineering standards and norms, applying technologies specific to the field of study and experience gained in the professional engineering environment		can design, in accordance with the given specification, and create a website or web application			[SU1] Assessment of task fulfilment	
Subject contents	Course content – laboratory 1. Introduction to the laboratory 2. Design of static HTML document. 3. Design of dynamic WWW documents using JavaScript. 4. Internet database application with PHP and MySQL server 5. Internet technologies in LabView Virtual Instruments.						

Prerequisites and co-requisites	No requirements		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Complete Exercises	50.0%	100.0%
Recommended reading	Basic literature	Elizabeth Castro, "Po prostu HTML, XHTML i CSS", Helion 2008 Wiesław Tłaczała, "Środowisko LabVIEW w eksperymencie wspomaganym komputerowo", WN-T 2002	
	Supplementary literature	No requirements	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Practical activities within the subject	Not applicable		

Document generated electronically. Does not require a seal or signature.
