

Subject card

Subject name and code	, PG_00062257						
Field of study	Architecture						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2026/2027		
Education level	second-cycle studies		Subject group				
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Language Center -> Vice-Rector For Education						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers		mgr Marek Adamczyk				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
	Additional information:						
	The label course English language I,WA,Architektura,II st., 1 sem.						
	with information on all online courses supplementing traditional classes.						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		0.0	30
Subject objectives	The aim of the course is to develop the ability to use English effectively in the academic and professional environments.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_K81] is able to cooperate in international team at her/his own university, during work placement and during study abroad	A student is able to work in a team, discuss case studies and solve problems using appropriate expressions. The ability to communicate fluently in every day and academic situations	[SK3] Assessment of ability to organize work [SK1] Assessment of group work skills
	[K7_U82] is able to proficiently obtain and process information related to field of study and academic environment in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR)	The student understands and is able to analyze information related to their field of study, for example, through analytical reading of specialized texts; knows the vocabulary and grammatical structures of a foreign language used for international communication, enabling them to produce and understand written and oral statements, both general and specialized in the field of architecture, as well as the need for fluent use of a foreign language, also in the context of scientific activity.	[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment
	[K7_U81] is able to communicate with ease in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	is able to use at least one foreign language that is a language of international communication at the B2+ level of the Common European Framework of Reference for Languages, including specialized terminology in the field of architecture and urban planning, necessary for design work and – to a basic extent – for scientific work; has the ability to communicate effectively in everyday life, in the academic and professional environment by formulating appropriate oral and written statements	[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools
Subject contents	Course content – exercises Vocabulary: Professional language development enhanced by scenario-based exercises, case studies, comprehension tasks, reading assignments, professional articles, vocabulary exercises contextualized in the Architecture field. Writing: Developing skills in writing various texts essential in the academic and work environments, including an abstract of an academic thesis, a report, a data analysis and a process description. Developing writing techniques such as style and register, coherence and cohesion, using in-text references and paraphrasing. Listening and speaking: Developing listening comprehension and communication skills in the academic and work environments. Practising giving presentations, participating in formal business meetings, videoconferences and negotiations. Developing intercultural awareness, critical thinking and project management skills. Reading: Developing comprehension skills in reading academic and professional texts, with particular emphasis on critical reading, skimming and scanning, selecting and prioritising information, recognising and understanding implicit meanings, and note taking.		
Prerequisites and co-requisites	Before joining a language group, students are expected to demonstrate language ability at level B2.		

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	presentation, writing, vocabulary test	60.0%	100.0%
Recommended reading	Basic literature	Cambridge Academic English, CUP Cambridge English for Scientists, Upper - Intermediate, CUP Professional English in Use, CUP Dynamic Presentations, CUP	
	Supplementary literature	Business Vocabulary in Use, Advanced, CUP Intelligent Business, Advanced, Pearson Market Leader, Advanced, Pearson Academic English For Engineers, PL	
	eResources addresses		
	Example issues/ example questions/ tasks being completed	Writing various texts for academic and professional purposes e.g. reports, CV, emails, summaries, memos, abstracts, instructions, process descriptions.	
Practical activites within the subject	Not applicable
