Subject objectives

The course aims to introduce students to the theoretical foundations, objectives, actors and instruments of social policy, as well as its links with the functioning of the economy and the population's quality of life. It develops students' ability to identify and interpret social problems using data, analyse policy approaches adopted in Poland and selected European countries, and formulate well-founded proposals for action, taking account of their social implications, institutional context and financial constraints.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[K6_K03] Critically evaluates their own knowledge necessary to solve cognitive and practical problems, supplementing gaps with input from external experts.	The student critically evaluates his/her own knowledge when analysing social problems and proposing solutions, and recognises the need to address gaps in that knowledge by drawing on the opinions of experts in social policy.	[SK1] Assessment of group work skills [SK5] Assessment of ability to solve problems that arise in practice
[K6_W04] Possesses advanced knowledge of the principles of creative and entrepreneurial action, including identifying and implementing innovative ideas while considering copyright protection requirements.	Student knows and understands the principles of developing innovative solutions in social policy, including identifying social needs and opportunities to meet them through entrepreneurial initiatives, taking account of copyright protection requirements.	[SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge

<table>
<tr><td>Subject contents</td><td>Course content – lecture

The nature and origins of social policy. Values, principles and models of social policy. Social policy actors, instruments and funding.
